HOW-TO [PRE-TEST BEFORE STUDENTS CAN SEE COURSE CONTENT]

To create a test that would be the only thing the student sees when they first log into a course and go to the Learning Modules.

Once this test has been submitted , the rest of the course will be available to the student and the professor has their pre-test created.

Here are the steps

1.

Under Learning Modules, Create the "pre-test" that you want the student to take.

2.

Under Settings, Click on the Automate tab

Step. 3

And click on the Action Editor
